Food and Nutrition

As a Practice, we are confident in recommending the Royal Canin range of foods for cats and dogs. These are available to buy or order from each of our surgeries.

For dogs, we stock the veterinary exclusive Vet Care Nutrition range, which is tailored to age, size and if neutered or not. We can also easily order from the breed specific range – please ask for details.

For cats, we sell the veterinary exclusive Healthy Cat range, which again is easy to choose according to age, and if neutered. Most of these diets have a special formula to greatly reduce the risk of developing struvite and oxalate crystals. There are also several diets exclusively designed for some breeds of pedigree cat.

Prescription diets are for animals with specific nutritional requirements due to disease or medical problems – these are prescribed under veterinary supervision.

All Royal Canin diets come with a no quibble full money back palatability guarantee.

We can offer a free delivery service if your food order exceeds £25.00. Other brands of food may be available to order.
