

EQUINE CLIENT MEETING

Thursday 22nd November 2018, 7pm

(Talk to start promptly at 7.30pm)

At Lyndhurst Community Centre, SO43 7NY

We urge all horse owners to join us for an educational and entertaining evening!

A team of veterinary specialists, led by Professor Derek Knottenbelt, known as 'Vets With Horsepower' have been making expeditions on motorcycles since 2010. They have travelled into Europe and beyond in order to deliver lectures to vets wishing to update their knowledge. By doing this they have been able to raise money to support deserving charities overseas including some involved with equine welfare. We are delighted to welcome three of the team, including Derek, fresh back from their most recent expedition which reached the Arctic Circle.

Derek Knottenbelt who is renowned for the quality of his presentations as well as his expertise will bring colour to '**Common Skin Conditions In Horses**', which will include recent treatment options for equine melanoma's, a common problem in grey horses.

Dr Jessica Kidd and **Dr Sanne Wilmink** will discuss '**Investigating Poor Performance in the Horse and some treatment options**'

The evening will include a scrumptious buffet and a window into the teams latest expedition to the Arctic Circle. Plus an update on the charities it is supporting.

The Smile Train provides life-changing cleft palate surgery for children that can otherwise not live a normal life.

Working horses and donkeys are the only source of income for many families in West Africa. Vets on Horsepower supported the **Gambia Horse and Donkey Trust** in building clinic facilities and getting transport for the injured and sick, and they also support the Dakar Interstate veterinary school in modernising the equine part of their curriculum.
